

# SuperScribe, LLC Newsletter

## RECENT EVENTS

Over the Holidays, SuperScribe welcomed a new client, Dr. Stephen Tugbiyele!

Dr. Tugbiyele is a highly skilled urogynecologic surgeon specializing in all aspects of Female Pelvic Medicine and Reconstructive Surgery. Pictured here with Dr. Tugbiyele is also a new member of our scribe team, Shivani. They make a fantastic provider/scribe duo and we are thrilled to work with them both!

## Message from the Company

Dear SuperScribe Providers,

SuperScribe could not have survived 2020 without all of you and we are thankful to work with the best providers in Georgia! With the expansion in digital health last year, we added Remote Patient Monitoring to our services. The benefits to providers are increasing every day as reimbursement codes are being created all the time for a wide range of telehealth services.

Our scribe programs continue to provide unparalleled, live physician support. For those of you who have been with us for a while it will come as no surprise that turnover season is coming. We will be saying goodbye to many of our experienced scribes and hello to a new crop of motivated future physicians, APPs and nurses. We love your referrals! If you know of individuals who want to get into the healthcare field and would be a good fit, please have them apply through our website and list you as a referral.

**“Observation, Reason, Human Understanding, Courage; these make the physician.”  
Martin H. Fischer (1879-1962)**

## WHERE ARE THEY NOW?

### Kathleen Metz

Since leaving SuperScribe, Kathleen attended medical school at Emory University and graduated in May of 2020. She chose Emergency Medicine as her specialty, a love of which started largely with her time as a scribe, and matched at Emory for her training. Kathleen began her residency in Emergency Medicine at Emory this past July and have spent months in the Grady ED, Grady ICU, Emory Midtown ED, and Hughes Spalding pediatric ED. “I often think back to what I learned as a scribe and how my medical education really started at that time, and I am so thankful for the opportunity that it gave me!”

## Scribe of the Quarter

Our Super Scribe for the first quarter of 2021 is **Cassia Yoon!** Cassia was an outstanding scribe in the Emergency Department for two years before transitioning to our Pediatric ENT clinic, where she was able to pick up the pace quickly and proved herself a great team member. A dedicated scribe who is always willing to help in any way she can, Cassia has been an invaluable asset to SuperScribe, LLC!

## News Article: With 2 New Patients a Day, Medical Scribes Are Profitable In One Year

“Providing a scribe right now might actually be the thing that keeps your providers from saying, “I’m going to retire. I’m opting out. If we don’t have some sort of tool that can help people with their notes right now, you could end up losing a good chunk of the workforce,” said Dr. Needa Laiteerapong in the study “[The Productivity Requirements of Implementing a Medical Scribe Program.](#)”
