

SuperScribe, LLC Newsletter

We Are Hiring !

For those of you who have been with us for a while it will come as no surprise that turnover season is coming. We will be saying goodbye to many of our experienced scribes and hello to a new crop of motivated future physicians, APPs, and nurses. We love your referrals! If you know of individuals who want to get into the healthcare field and would be a good fit, please have them apply through our website and list you as a referral.

Message from the President

On March 30th we celebrate National Doctors Day, a “holiday” which, interestingly enough, was started in Winder, GA. Eudora Brown Almond, the wife of a physician in Georgia, believed physicians deserved better recognition for all their hard work and thus, National Doctors’ Day was born. She wasn’t wrong. On a daily basis you are healing and saving. You get yelled at and spit on (amongst other things). You don’t get the recognition you deserve. I have said it before and I will say it again, SuperScribe truly has the best doctor clients. Not only are you saving lives every day, but you are guiding and molding the future of medicine. Your reference letters have been the reason for so many acceptances to both Medical and PA schools. Our Scribes gain so much from working with each of you and we can’t thank you enough for bringing them into your department families. We are incredibly lucky to have you and wish each of you a Happy Doctor’s Day!

“A doctor is a person who gives people an opportunity for a healthy tomorrow.”

WHERE ARE THEY NOW?

NaKiera Evans

After leaving SuperScribe, NaKiera started her medical school journey at Morehouse School of Medicine. She is currently in her third year. NaKiera received a scholarship with the U.S. Army (called HPSP/Health Profession Scholarship Program) starting her second year and commissioned as a Second Lieutenant. She is still deciding on a specialty, but is very interested in pediatrics and internal medicine, as well as psychiatry. She will be applying for residencies in a few short months!

Scribe of the Quarter

Our Super Scribe for the first quarter of 2022 is **Jaylyn Lack!** Jaylyn has been a great asset to SuperScribe, and we are lucky to have her on our team. She is an incredibly hard worker and always has a smile on her face. She goes above and beyond at multiple campuses and is loved by all the staff. We are so proud of Jaylyn and can’t wait to see what she accomplishes in the future!

News Article: Humans Top Digital Scribes For Better EHR Documentation

Clinicians scored digital scribes well behind hybrid models and human scribes when it came to EHR documentation. Human scribes still trump digital scribes in EHR documentation, according to a study published in the *Association for Computing Machinery Digital Library*.

A digital scribe is not currently capable of widespread adoption because of a lack of accuracy, completeness, and medical synthesis, clinician respondents said.
